Accuracy International Chassis System

The most advanced replacement stock system available for Remington™ 700

Remington™ 700 users can benefit from many of the advanced ergonomic and functional benefits of the AI rifle system, a far superior chassis system with full-length aluminium self-aligning, self-bedding vee block compared to traditionally bedded interfaces between actions and stocks.

All Accuracy International sniper rifles use this chassis, which is **not merely a stock**. The metal and polymer structure provides the raw strength and durability necessary to provide a rugged platform for the barreled action, and is a combat proven structure in all of our rifles. The AICS requires no specialized gunsmithing and is quick and easy to install. The Accuracy International Chassis System provides a degree of modularity and configurability that cannot be achieved with fibreglass alone.

The modern sniper needs to rule the battle field day and night, in all weather and any terrain, and the AI Chassis System achieves this.

1 Full length aluminium chassis

The stiffness of the chassis gives the rifle a rugged, environmentally stable platform to enhance accuracy and zero retention. The action is attached to the stock by two bolts (supplied)* and retained in a self-aligning vee block bedding system.

2 Folding chassis

When folded, the overall length is reduced by 8" (210mm). Ideal for rapid deployment from a vehicle, the stock locks in the folded position for security and to avoid noise. Released by simply pulling on the butt, the wear compensated hinge ensures total rigidity in the extended position. This option adds 0.4lb (0.2kg) to the weight.

3 Stocksides

Designed to provide a secure grip and a repeatable shooting position in all conditions, the aluminium chassis is encased in polymer stocksides which are impervious to all normal cleaners and lubricants used in small arms maintenance. Stocksides are available in black, green or dark earth.

4 Adjustable cheekpiece

The standard adjustable cheekpiece adjusts left/right as well as for height to obtain optimum cheek position when using night vision equipment or telescopic sights with large objective lenses.

Standard features

Options

5 Butt pad

Stock systems are fitted with a fixed bolt-on pad together with 0.4" (10mm) and a 0.8" (20mm) spacer. Additional spacers are available to customize the length of pull.

6 Sling fixing points

Four sling swivel attachment points, two per side are fitted enabling the rifle to be carried flat against the back for added comfort.

7 Bipod adapters

The chassis has integral fixing points for bipods to suit both Accuracy International and Harris™ designs.

8 Magazine

One flush fitting, five shot detachable steel magazine is included. This industry-leading design is corrosion resistant and low friction for reliable feeding. An optional ten shot magazine is also available.

Accessories

Magazines

Coated steel for durability and corrosion resistance with removable springs and risers.

Part No.	Description
3901	AICS .308 (5 shot)
3902	AICS .308 (10 shot)
0479	AICS .300 Win Mag (5 shot)

Bipod

Heavy duty steel bipod with extendable legs, quick release spigot mount. Wt. 1.1lb (0.5kg).

Part No.	Description
2485	Bipod assembly AI design
3653	Slip on rubber foot l/h for above
3654	Slip on rubber foot r/h for above

Butt pads

Butt Plates and spacers to adjust the rear end of the rifle to the shooter's height and angle for comfort and length of pull.

Part No.	Description
1044	Target adjustable butt plate
0744	Butt spacer kit (standard) 1x10mm + 1x40mm + screws
4124	Butt spacer kit (for target adj. butt plate) 1x10mm + 1x40mm + screws
0587	Butt spacer 10mm
0588	Butt spacer 20mm
0589	Butt spacer 40mm

Slings

Carrying and single point shooting slings.

Part No.	Description	Colour
0647	Sling / carrying harness	green
3700	Sling / carrying harness	black
1861	Sling, biathlon design (rucksack style)	black

Accuracy International is based on the principles of world class manufacturing, teamwork, mutual respect and trust with the objective of maintaining our reputation as producers of the "Best Sniper Rifle in the World"
